

## **MIDSIZE CHAIN (FWD Only)**

- 1) ABSOLUTELY NO WELDING other than the 4-point floating cage with halo and tank protector. Can Weld on bumper without additional metal.
- 2) All body mounts must be factory.
- 3) Chain/Wire of the doors, trunk lid and hood.
  - a. 4 spots on hood and trunk lid
  - b. 2 spots per vertical seam for doors.
- 4) Aftermarket brake and gas pedal, shifter, and headers are allowed.
- 5) You must use stock bumper off a car that is comparable. You may add 4 bolts to help hold it on, or weld it with no additional metal use. If bumper is plastic DO NOT put on tubing, full size bumper or steel compact bumper. We will enforce this rule, if the bumper is not to specs you will be bumped up to the limited midsize class.
- 6) Any tire is allowed.
- 7) All plastic, lights, and glass must be removed.
- 8) Drivers' door can be welded shut.
- 9) You can clamp your suspension to the desirable ride height. Do not weld struts, tie rods, bumpers, motor mounts, door, etc.
- 10) Pre ran cars will be allowed 2- 3x3x1/4" fix it plates, they can be used to weld the bumper back on. Absolutely nothing above and beyond those 2 plates. Any more you may think you need build a new car or run the limited class.
- 11) This is a simple, basic, quick and fun build.
- 12) Any questions contact Greg Mayer 715-338-5864
